We use this information to manage the Services, respond to you, communicate with you, do market research, improve our marketing, and grow our business.
- **DEVICE CONTENT (CONTACTS AND PHOTOS).** With your permission, we will collect content from the device you use to access our online Services, such as photos from your device camera roll and camera and the contacts from your address book. We use this information to share photos and video you take during your vacation or to communicate with your contacts. You can change your permissions anytime through your mobile device.

You may provide personal information for yourself and those traveling with you. By providing us with the travel or contact information of any third party, you confirm that you have the authority to do so on their behalf and have provided them with the information set out in this Privacy Notice. The personal information of each person whose personal information is linked to the same travel itinerary may be accessible by all others included in that same itinerary.

B. While You Are On Your Vacation.

When you take part in the Services aboard one of our ships or at one of our properties, we collect information about your visit, including information about your interactions with our staff, programming and with the technology-enhanced features of our ships and hotels.

There are a few different types of vacation experiences where we may collect and use your information.

- **AMENITIES, EXCURSIONS & ADD-ON SERVICES.** If you use our amenities or buy things or Services on board, we collect your name, contact, account and travel details, and purchase information. We use this information to process your purchase, manage your Services, communicate with you and your travel companions, and improve our marketing. If third-party companies provide the Services, we will share your information with them.
- **INCIDENTS AND HEALTH SCREENINGS.** If you get injured, fall ill, or are involved in an incident while traveling with us, we collect your name, health information, and details about what happened. We may also check for symptoms of illnesses like COVID-19 using temperature checks, questionnaires, and tissue samples. We use this information for promotions, keeping records, investigating incidents, protecting everyone's rights, security, public health, preventing fraud, and improving our Services. We may use facial recognition on your security photo to help with boarding and exiting the ship. We also use it to link photos and videos taken on board to you for easier ordering and to save paper. The Medallion® is linked to your personal information from your registration and traveler profile. We use this information to provide personalized services during your vacation. For example, we can find you on the ship, help you find family members, deliver Services like food to your location, and send you relevant messages, and customize the Services. CHOICES ABOUT YOUR INFORMATION

PROFILE ACCESS & SHARING SETTINGS. You may access and update your profile information, such as your user name, address, or billing information, and may change some of your data sharing preferences on your account page.

GEOLOCATION & DEVICE CONTENT. You may control location tracking by adjusting your location services options on the "Settings" app on your mobile device. We may continue to approximate your location based on your IP address when you access the Services through a computer or device. If you would like to update your device content access permissions, such as permissions to access your camera or address book, you can do so in the "Settings" app on your mobile device.

MEDALLIONCLASS™. To avoid the collection of your position and movement data collected, do not use the Medallion®. You may contact the staff on board the ship to request a card to access your guest room and pay for on board transactions in lieu of the Medallion®. The sensors will still be able to detect your on board position when you use the card to access your room, make a payment, or take a photo, but the card cannot be read by the long-range sensors to track movement data around the ship. Some features of the MedallionClass™ Services will not be available to you if you do not use the Medallion®.

- **RIGHT TO OPT OUT OF USE OR SHARING PERSONAL INFORMATION FOR TARGETED ADVERTISING,** which may still result in your receipt of our advertising online based on the context of the ad placement, and not on the use of your personal information.

You may also have the right to be free of retaliatory or discriminatory treatment for exercising these rights. However, please note that if the exercise of these rights limits our ability to process personal information (such as in the case of a deletion request), we may no longer be able to provide you our Services or engage with you.

We will need to verify your identity before processing your request, which may require us to request additional personal information from you or require you to log into your account.

In certain circumstances, we may decline a request to exercise the requests described above, particularly where we are unable to verify your identity. If we are unable to comply with all or a portion of your request, we will explain the reasons for declining to comply with the request.

If you want to submit a privacy request on behalf of your minor child, you must provide sufficient information to allow us to reasonably verify your child is the person about whom we collected personal information and you are authorized to submit the request on your child's behalf (i.e., that you are the child's legal guardian or authorized representative).

ABOUT OUR ADS

We participate in interest-based advertising and use third party advertising companies to serve you targeted advertisements based on your browsing history

We allow third-party advertising networks, social media companies, and other services to collect information about how you use our Sites. They use this information to show you ads on our Sites, other websites, apps, and devices you use. This information is usually collected through tracking technologies that recognize your device and gather details like what you click on, your browser type, the time and date you visited, your device ID, rough location, and other data.

We may share a common account identifier (like a hashed email or user ID) with third-party partners who use tracking technologies to find potential marketing audiences. These partners may use this information and combine it with data they collect or get from other sources, both online and offline. This helps them recognize you on different devices and platforms, like computers, mobile devices, and smart TVs. We and our partners use this information to show you ads and personalized content that match your interests, and to provide services like reporting, attribution, analytics, and market research.

MANAGING TRACKING TECHNOLOGIES. Some of our Services let you adjust your tracking preferences. For example, if our Sites have a cookie preferences tool, you can use it to change your settings for certain tracking technologies on that specific Site, device, and browser. You will need to do this for each device and browser you use.

If there isn't a cookie preference tool, you can use third-party tools to limit tracking. For example, most browsers let you change settings to limit tracking technologies, most email providers let you stop automatic image downloads that may contain tracking technologies, and many devices let you change settings to limit tracking in apps. Blocking tracking technologies might affect how well our Services work, and some features might not work at

all. You might need to update your preferences on multiple devices or browsers. We don't control these third-party tools and aren't responsible if they don't work as expected.

MANAGING AD PREFERENCES. In addition to taking the steps set forth in the [Managing Tracking Technologies](#) section above, you may be able to further exercise control over the advertisements that you see by leveraging one or more targeted advertising opt-out programs. For example:

- **SOCIAL MEDIA ADVERTISING.** Certain social media platforms provide individuals the option to turn off targeted advertising for the entire platform (such as certain social media platforms). Please refer to your platform provider's user guides for additional information about implementing any available platform-specific targeted advertising opt-outs. You may learn more about advertising preferences by clicking on the links provided below. Please note that these links are provided for your convenience only and we do not control the content or features that may be available on these third-party services.

 - Residents of the United Kingdom may visit the [Your Online Choices Website](#) 
 - Residents of the European Union may visit the [Your Online Choices Website](#) 

Please note that opting out of receiving interest-based advertising through the NAI's and DAA's online resources will only opt-out a user from receiving interest-based ads on that specific browser or device, but the user may still receive interest-based ads on his or her other devices. You must perform the opt-out on each browser or device you use. We may work with some tracking technology partners that do not participate in the DAA or NAI self-regulatory programs and these opt-outs will not have any effect on those partner activities.

Note that some of these opt-outs may not be effective unless your browser is set to accept cookies. If you delete cookies, change your browser settings, switch browsers or computers, or use another operating system, you may need to opt-out again.

- **THIRD PARTY PARTNERS.** Certain of our third-party providers and partners offer additional ways that you may exercise control over your personal data, or automatically impose limitations on the way we can use personal data in connection with the services they provide.
 - **Google Analytics.** We use Google Analytics to recognize you and link the devices you use when you visit our site or Service on your browser or mobile device, log in to your account on our Service, or otherwise engage with us. For information on how Google Analytics collects and processes data, as well as how you can control information sent to Google, review [Google's site How Google uses data when you use our partners' sites or apps policy](#).  You can learn about Google Analytics' currently available opt-outs, including the Google Analytics Browser Ad-On, by visiting [Google Website](#). 
 - **Google Advertising.** We may also utilize certain forms of display advertising and other advanced features through Google Analytics, such as Remarketing with Google Analytics, Google Display Network Impression Reporting, the DoubleClick Campaign Manager Integration, and Google Analytics Demographics and Interest Reporting. These features enable us to use first-party cookies (such as the Google Analytics cookie) and third-party cookies (such as the DoubleClick advertising cookie) or other third-party cookies together to inform, optimize, and display ads based on your past visits to the Service. You may control your advertising preferences or opt out of certain Google advertising products by visiting the [Google Ads Preferences Manager](#)  or by visiting [NAI's online resources](#). 
 - **Adobe Experience Cloud.** We may participate in the Adobe Experience Cloud and Adobe Experience Cloud Device Co-Op to better understand how you use our website and apps across the various devices you use, and to deliver tailored promotions. You can learn more about Adobe services and the Adobe Experience Cloud and how you can opt out of Adobe advertising solutions by visiting [Adobe's Website](#).

However, depending on your state of residency and subject to certain legal limitations and exceptions, you may be able to limit, or withdraw your consent for, our processing of sensitive information (as described in the [Your Rights and Choices](#) section below), except for where the processing of your sensitive information is necessary to provide you the services or otherwise required by law.

CHILDREN'S PRIVACY NOTICE

Though Carnival Corporation provides fun for families of all ages, most of our online Services are not intended to be used by children, nor do we have actual knowledge that children are using these online Services. When we intend to collect personal information from children through a mobile app or online service, we take additional steps to protect their privacy.

The privacy of our youngest users is very important to us. Children under 13 (in the US) or otherwise defined by applicable law (for example, under age 14 in China and Canada, under age 16 in the EEA, or under age 18 in India and Indonesia) (“**Child**” or “**Children**”) may download our mobile apps or use our online services and use them with limited functionality without providing any personal information. If a Child creates a login profile and we determine the Child is underage, the we will seek express authorization of a parent or legal guardian before the Child will be permitted to provide additional personal information, make purchases, or engage the chat functions.

Please contact us at Privacy@Carnival.com if you believe we have inadvertently collected personal information from a Child without necessary parental consent so that we can delete this information as soon as possible.

When we recognize a Child is using an application or online service, the following policies and practices apply:

- We collect only as much personal information as necessary to provide the functions of the application and to provide notice to parents, consistent with the requirements of children's privacy laws, including the Children's Online Privacy Protection Act ("COPPA").
- We will seek parental consent before we will enable certain features of the mobile applications, including chat and location features and in-app purchases.

How a Child's Personal Information is Collected. During registration, we collect the person's first and last name, date of birth, and booking number (optional) to find them in our booking systems.

If we see the person is a Child, we use the parent or guardian's contact information from the reservation to notify them and ask for consent for the Child to use the app fully.

We automatically collect information about how the Child uses the app or online service and their device, like a device ID, other persistent identifiers, operating system, and settings. This helps us run the app, monitor and improve our Services, and for other internal purposes.

If a parent or guardian allows the Child to use chat and purchase features, we collect the Child's chat messages, chat usage data, and purchase records. If the Child uses a Medallion® on a MedallionClass™ ship, the app will also collect their location data on board.

How a Child's Personal Information is Used and Shared. We use the personal information collected to provide features in the applicable service or app, like letting the Child view the ship's schedule, choose activities, use chat (if allowed), and choose photos taken on the ship. With the parent or guardian's consent, the Child can make purchases on board or access internet services. The Child's information may be shared with staff to help with purchases and dining requests, and purchase details will be shared with the parent or guardian. With the parent or guardian's consent, the Child can use the Shipmates chat to talk to approved individuals. We recommend parents supervise their children using the chat. The Child's location data on the ship will be shared with the parent and approved members of the booking party. We may also use the Child's information to improve the onboard and app experience. We will not use the Child's information for personalized ads.

How Parents May Access and Control a Child's Information. At any time, parents can withdraw consent for further collection of personal information from the Child through the App and can request that we delete from our records the personal information we have collected in connection with the App. Please keep in mind that a request to delete records may lead to a termination of an account or other service, and that we may not be able to delete information that we need to retain for certain legal or business records.

To access the information we have collected from the Child:

- (1) Parents can request access to and delete their Child's personal information by logging on to the Child's account through the Child's mobile device. Parents will need their Child's username and password.
- (2) Parents can contact Guest Services to request access to, change, or delete their Child's personal information by visiting the Guest Services desk on board. If you believe your child is participating in an activity that collects personal information and you or another parent/guardian have NOT given consent for, please feel free to contact us Guest Services.

Retention of Children's Data

We retain the information collected from the Child only as long as necessary to provide the Services and fulfill our internal business purposes.

Contact Us

Please contact us if you have any questions about how your Child's personal information is collected, used, shared, or stored or if you would like to access or delete your Child's personal information at Privacy@Carnival.com.
